

DreamLine

Bathroom of Your Dreams™

SHOWER ENCLOSURES

They are all very different - round, rectangular, neo-angle, D-shaped – but all of the DreamLine™ shower enclosures share the same basic lineage. All of these shower enclosures are made of tempered safety glass combined with anodized aluminum profiles. Enclosure glass may be installed on custom tiled trays or for streamlined installation may be combined with optional DreamLine™ shower trays. Available in a variety of sizes, shapes and finishes these shower enclosures are designed for installation against finished acrylic or tiled walls. Add a simple shower head or an advanced DreamLine™ Shower Column and create the Bathroom of Your Dreams™ with DreamLine™ shower enclosures.

HORIZON

SECTOR

DreamLine universal shower wall panels are both a functional and beautiful addition to any shower. These versatile shower wall panels are made of Acrylic/ABS advanced materials, are designed for quick install and engineered to trim-to-size for most DreamLine enclosures. Ceramic tile walls for shower enclosures may look good, but are very difficult and expensive to install and even tougher to take care of. DreamLine shower wall panels install in hours and are easy to maintain and enjoy for years to come.
