

Cool-A-Zone vs. The Competition

Smaller. Stronger. Smarter.

EXCEPTIONALLY LOW RUNNING COST

Less than \$1 per day

1/3 Smaller in size than most competitors, for the same CFM

Built-in Debris Filter, keeps pads clean and extends life

Innovative Stainless Steel Blade design allows greater cooling power from a smaller unit

Available in multiple colors, with custom colors available upon special order

Lightweight and easy to move

Fifth Center Wheel prevents warping & increases portability

LOWERS AMBIENT TEMPERATURE

an average of 10° - 25° F

ECO-FRIENDLY

No harmful greenhouse gases

Digital Control Panel with auto on/off, run-time settings, output temperature display, fan speed, operating time, and low water warning

Auto Shut-Down dries cooling pads before total shut down to extend life of pads to 3-5 yrs vs. 1-2 years with the competition.

Low Water Shut Down will turn the pump off automatically if the water is below optimum level for operation to prevent pump burn-out, a common problem with the competition

Single molded fiberglass shell is sleek, sturdy, compact and helps to prevent sagging

SMALLER SIZE MEANS EASIER TO STORE

Increase sales & rental revenues

INDUSTRY LEADING TWO YEAR WARRANTY

Exceeds the major competitors

LOWER SHIPPING WEIGHT

Save on delivery costs
