

Assemble on carpet or a protective mat.

- 1 Flip the seat over and align the base as shown. Insert the two long screws through the base and into the two metal pads mounted toward the front of the seat. Now insert the two short screws through the base into the two metal pads mounted toward the back of the seat. Using the hex key, tighten all the screws only **half-way**. Once all four of the screws have been partially tightened, go back and fully tighten them. Finally, flip Stella on to her feet and introduce her to her new home.

REV 1 2007.06.19

HARDWARE INVENTORY

2 long screws

2 short screws

1 hex key
