Ashville

Features

Ashville is a stunning solid side-scraped Maple product. Rather than scraping the length of the plank, we scraped across the width of the plank, giving Ashville its unique character. With beveled edges and square ends, this product is available in two widths and two colors.

- This product is protected by Shaw's DuraShield finish which provides superior wear resistance and lasts up to seven times longer than conventional UV cured urethane finishes.
- This hardwood is rated CV3 High with high color variation within each box. It is imperative that hardwood planks from various cartons be continually blended during installation to insure optimum appearance.
- This product can be installed above or on ground level and can be nailed or stapled
- Made by Shaw with pride in the USA
