

Sizing Help

Your pet's measurements are very important for safe, comfortable travel. For a proper fit, carefully measure and weigh your pet.

For pets up to 8 lbs.
13" in length x 7.5" in height

For pets up to 16 lbs.
16" in length x 10" in height

For pets up to 22 lbs.
18" in length x 11" in height

Length: is from the nape of the neck (where the collar falls) to the base of the tail.

Height: is from the floor to the shoulder.

Weight: should not exceed maximum weight.

For instance: Sherpa, our namesake Lhasa Apso, makes for a helpful example: Sherpa traveled in the medium size bag. She was 16" long from the nape of her neck to the base of her tail, 10" high at the shoulder. She weighed 15 lbs.

Sherpa carriers and totes are intended to allow your pet to lie down comfortably, but please note, your pet should have enough room to stand up and move around.
